BUSINESS SYSTEMS & OPERATIONS ANALYSIS

Orlando, Florida · Remote, U.S. · avergara13@me.com · 407-432-6959 · [LinkedIn](#) · [GitHub](#)

PROFILE

Bilingual operations leader turned business-systems and workflow analyst. Combines 15+ years of hands-on hospitality leadership with shipped product delivery, process mapping, operational reporting, and human-controlled automation. Strong at finding hidden handoffs, exceptions, and decision rules-then turning them into clearer requirements, workflows, and operating systems.

CORE STRENGTHS

Business-process mapping · requirements gathering · workflow analysis · operational reporting · decision rules · exception handling · inventory & purchasing · vendor coordination · workforce routines · documentation · emerging SQL/Postgres · bilingual English/Spanish

SELECTED PRODUCT & SYSTEMS WORK

- Resale Scanner Pro - Shipped an end-to-end decision-support product with structured intake, AI-assisted research, profit modeling, human review gates, external-service integration, publishing workflows, and operating records.
- Loft OS - Architected governed workflow patterns for scope, authorization, evidence, recovery, and closeout; focused on visible ownership and fail-closed controls.
- The Office Chef - Framed a restaurant back-office automation concept around invoice intake, vendor price changes, food costing, inventory review, menu-margin analysis, and owner briefings.
