SELECTED PRODUCT & SYSTEMS WORK

- Resale Scanner Pro - Shipped a public mobile-first workflow spanning item capture, AI identification, market research, BUY / MAYBE / PASS decisions, listing preparation, publishing, and operating records; connected frontend, backend, database, AI, automation, and marketplace services.
- Loft OS - Designed a governed AI-workflow case study that moves work through scoped intake, role-separated execution, human approval, evidence-backed review, recovery, and deterministic closeout.
- Sous Chef - Built a public hospitality-domain application for authenticated recipe workflows, pantry and inventory signals, cookbooks, session history, and AI-assisted recipe creation.
